# OIL-LESS VACUUM PUMP CYCLONIC FILTER BRD-60

## INTRODUCING THE INNOVATIVE BECKER CYCLONIC FILTER BRD-60

The workplace can be a very dusty environment, especially in the **woodworking industry**. The innovative Becker Cyclonic Filter BRD-60 keeps the **vacuum relief valve** on your Becker Model VTLF/VXLF vacuum pumps from clogging with saw dust and particulates. Utilizing the new Becker Cyclonic Filter BRD-60 is a **simple and cost effective** way to prevent costly, premature vane wear or, worse yet, bearing failure.

*Keep sawdust and particulates out of your pump to keep it running like new, worry free*

### COST SAVINGS AND LONGEVITY FOR BECKER PUMPS!

Part No. 74000600100A-BPC

**Becker Reduces Dust,**  
**Becker Reduces Downtime!**

### Benefits of the Becker Cyclonic Filter BRD-60

#### Minimize maintenance costs

- No filter elements to change saving money and downtime.
- One time purchase will last the lifetime of the pump.

#### Mechanical and maintenance-free

- Comes completely assembled and installs in seconds.
- Operation is purely mechanical. Once installed, there is zero maintenance.

#### Easy to retrofit

- One size fits all Becker VTLF/VXLF pump models.
- Comes with a fitted adapter for quick installation. Simply screw it in!
